## **RENEWAIRE NAMED A TOP WORKPLACE**

**WAUNAKEE, WI** – RenewAire has been awarded a Top Workplaces 2020 honor by The Wisconsin State Journal. Organizations are selected solely on employee feedback gathered through a third-party survey. The anonymous survey measured drivers of engaged cultures that are critical to the success of any organization: including alignment, execution, employee appreciation, confidence in leadership and company values and goals, just to name a few.

RenewAire was recognized in Wisconsin State Journal articles with quotes taken from the anonymous employee survey including, “My voice is heard here” and “I am allowed to look into improvements in processes and lead projects to make those improvements.” Also noted were RenewAire’s comprehensive benefits package, monthly employee appreciation events, flexible work schedules, onsite fitness center and stipends toward membership in a Community Supported Agriculture program.

RenewAire continues to grow in recognition as a Madison area employer of choice that offers great work life balance, competitive benefits, and an innovative environment that supports employee growth, all backed by an inspirational vision and mission.

### **ABOUT RENEWAIRE**

RenewAire is a “green and growing” Madison area manufacturer, a pioneer in Energy Recovery Ventilation (ERV) technologies for over 35 years, and a leader in Quick Response Manufacturing (QRM). RenewAire designs and manufactures ERVs and Dedicated Outdoor Air Systems (DOAS) that improve people’s health, cognitive function, productivity and wellbeing by enhancing indoor air quality (IAQ) in homes and buildings of every type while at the same time supporting sustainable and energy efficient building practices. Fresh, healthy conditioned air is supplied efficiently and cost-effectively by state-of-the-art systems that recapture energy otherwise-wasted in exhaust air. RenewAire’s energy recovery ventilation systems also lower capital equipment size and costs by reducing HVAC loads and minimize ongoing operational expenses.

OUR VISION is to make a POSITIVE DIFFERENCE FOR THE PLANET by helping people consume less energy and reduce the cost to condition building air, while PROVIDING HEALTHIER INDOOR AIR quality for people where they work, live and play.
