

INCREASE VENTILATION TO HELP

#STOPTHESPREAD

THE CDC RECOMMENDS

Increase Outdoor Air Ventilation Rates

Since carriers of infectious diseases, such as small particles and aerosols, can be airborne, removing them via building ventilation can be a powerful tool in mitigating transmission

RenewAire's Energy Recovery Ventilation (ERV)

PROVIDES INCREASED VENTILATION to dilute indoor air contaminants and decrease disease transmission rates

ERVs REDUCE VENTILATION ENERGY COSTS (UP TO 65%)

INSTALL A RENEWAIRE ERV IN YOUR HOME

Read what the experts (CDC, OSHA, ASHRAE, REVHA) have to say about **ventilation** in the fight against **COVID-19**:
